Fulton County Coordinated Transportation Plan and obtain public feedback. Coordination of health and human services transportation has been demonstrated to reduce costs and increase access to services for older adults, people with disabilities, and other transportation disadvantaged populations. The purpose of the Coordinated Plan is to identify existing transportation resources in the County, understand where gaps and unmet needs might exist within those resources, and determine a strategy for addressing those gaps and unmet needs. This meeting will provide the public an opportunity to review Fulton County's Coordinated Plan as well as share transportation needs and their vision for the future of Fulton County's transportation services.
