

Addendum #1 (9/30/2020): Note that the due date for Statements of Qualifications for this project is hereby extended to noon on October 7th, 2020.

Request for Qualifications

City of Defiance Acquisition and Demolition of Commercial Buildings on South Clinton St.
Hazard Mitigation Grant Program Project Number FEMA-DR-4360.03-OH.

The City of Defiance is seeking statements of qualifications from interested firms to enter into a contract for structural engineering services for the project referenced above. A combination of FEMA Hazard Mitigation Grant Program funds and local funds are being used to acquire and demolish the flood-prone structures located at 106, 110/114, and 118 South Clinton Street in Defiance. The City is seeking the services of an engineering firm to develop a demolition plan for the project that describes the measures required to preserve and maintain the structural integrity of the common wall between 118 South Clinton Street (to be demolished) and 120 South Clinton (to be preserved and remain operational), the city sidewalks and streetscape appurtenances located adjacent to the buildings being demolished, and any other structural considerations that should be made during demolition.

All firms interested should reply with a statement of qualifications no later than noon on **September 30th, 2020**. Statements received after this deadline will not be considered. E-mail submissions will be accepted.
